

# MINDYK PHOTOGRAPHY

My role as a photographer is much more than a creative artist. When I photograph your event or portrait sitting, my passion is part of the process in capturing everything encompassing beautiful memories you will cherish forever.

I utilize a very relaxed approach. True emotion is caught and revealed using this style photography. The end result is a narrative collection of images that show actual emotions and experiences of the shoot in the comfort of your surroundings.

If you want candid and artistic photos, choosing this style allows for a loose and relaxed way of being photographed, with a photographer that lets the actions of our shoot happen instead of making them happen.

**My pricing does not include hard copy products, however for an additional fee I can provide a [custom album](#). I do not shoot for prints to clients. I am being compensated for my time in attendance at your event/project, my post processing time to prepare your photographic memories, and my creativity ability to capture the memories of your special imagery.** I provide proofs (full sized) on CD of images for my clients to keep along with image editing and web sized images of their selected proofs. Album purchases are not required.

**Please consider in your price quote provided that for every hour a photographer spends actually capturing your event he or she has to spend about two hours doing photo editing and digital processing.**

Following your event/project, images will be placed online (usually in 24-48 hours) to view and select approximately 8-10 images for full editing (color corrections, b/w and sepia conversions, proper sizing for printing, etc). Proofs will remain online for a maximum review time of 2 weeks and are posted for web review only (these are not high resolution images for printing) Large format images will be included with the proof CD. If you would like more images beyond the 8-10 I can provide this at an additional charge. I also provide a release so that my clients have the written copyright authorization, should they decide to take their images to their local retailer or online photo lab for reprinting purposes.

**(1) 8 x 8 Coffee Table Book (20-25 pages).**

\$175

**(1) 12 x 12 Coffee Table Book (20-25 pages).**

\$200
